

We're all working to improve the lives of girls & young women. It's time to stop working in isolation - let's network, collaborate, and discuss common issues.

Girls Stakeholder Meeting

Join us for a morning of networking, sharing, discussing & exploring. Learn about similar organizations in the Edmonton area and have an opportunity to exchange resources and common challenges. Program staff, executive directors, and participants welcome. Refreshments provided. Please bring information about your programs and any resources (display copies of manuals, workshop guides, etc) you find helpful in your work.
